

CSR STATEMENT OF PREMIER SUITES PLUS Rotterdam

At PREMIER SUITES PLUS Rotterdam, we recognize the impact our business activities can have on the environment and society. Therefore, we strive to act in a way that preserves and makes the natural environment available for future generations. To achieve this, we continuously integrate sustainability into our business processes, services, and products.

Our approach is guided by conscious choices that balance people, planet, and profit. We believe that this is an ongoing process and not a destination, so we continuously seek feasible steps to embody our social responsibility in our company. To achieve this, we have implemented the following measures:

- We actively stay up to date with CSR developments in our industry and contribute to the transfer of our knowledge to employees and others who want to learn.
- We inform our guests, employees, and suppliers of how we conduct our business in a socially responsible manner.
- We make transparent agreements with all involved parties regarding the quality of our products and how we maintain it.
- We determine the social and environmental impact of our product in addition to the financial impact, and we strive to minimize any potential negative impact.
- We voluntarily contribute to societal goals through donations, sponsorship, and/or volunteer work.
- We strive to inform and facilitate our guests and customers in reducing their environmental footprint whenever possible.
- We continuously work to reduce our environmental impact and increase the sustainable nature of our business. By actively striving to reduce waste streams and our consumption of gas, water, electricity, and fossil fuels.
- We continuously work to improve our own procurement process, focusing on goods and services that are sustainable, preferably with an approved environmental and/or sustainability and/or social certification.
- We take our social responsibility seriously and are committed to maintaining a sustainable and environmentally conscious business.
