

PS PLUS ANTWERP

CSR STATEMENT OF PREMIER SUITES PLUS Antwerp

At PREMIER SUITES PLUS Antwerp, we acknowledge the potential impact of our business activities on the environment and society. Therefore, we are dedicated to acting in ways that preserve the natural environment for future generations. To achieve this, we continuously integrate sustainability into our business processes, services, and products.

Our approach is guided by deliberate choices that balance people, planet, and profit. We view sustainability as an ongoing journey, not just a destination, and continually seek feasible steps to embody our social responsibility within our company. To realize this commitment, we have implemented the following measures:

- We actively stay informed about CSR (Corporate Social Responsibility) developments in our industry and share our knowledge with employees and others interested in learning.
- We inform our guests, employees, and suppliers about how we conduct our business in a socially responsible manner.
- We establish transparent agreements with all involved parties regarding the quality of our products and how we maintain that quality.
- In addition to assessing the financial impact, we evaluate the social and environmental impact of our products, striving to minimize any potential negative consequences.
- We voluntarily contribute to societal goals through donations, sponsorships, and volunteer work.
- We aim to educate and assist our guests and customers in reducing their environmental footprint whenever possible.
- We consistently work to reduce our environmental impact by minimizing waste generation and our consumption of resources such as gas, water, electricity, and fossil fuels.
- We continuously improve our procurement process, emphasizing the acquisition of sustainable goods and services, preferably with approved environmental and/or social certifications.
- We take our social responsibility seriously and are committed to maintaining a sustainable and environmentally conscious business.
